My Dear Benefactors

It's with deep sense of love and gratitude I pen this small note of Appreciation on behalf of the recipients of the Solar Units.

I was fortunate enough to witness the innocent smiles of the families who received those. The happiness of the children was also the same.

It was indeed a big relief for them as they are undergoing untold hardships due to the prevailing economic & political crisis in the country.

Your kind gesture of love & generosity are valued by all. I too appreciate your timely help.

Be assured of my continuous prayers so that the Good Lord may continue to bless you all in all your future endeavours.

Blessings of Jesus!

Generous Uncles & Aunties. I am writing this letter in gratitude. We live in a village of difficult area. We, all students, study in a small school. Studies are to 08th Grade. There are only 72 children in the school. It is very difficult for us to study. Difficult to read too. We all study under the light of a bottle lamp. We see the light in the lamp only rarely. Reason is the shortage of kerosene oil.. Lots of times we do not have money to buy oil. Because of the Solar Lights donated by you, we will be able to study effectively. We thank you for this generous Solar Light and are grateful. May God Bless You in abundance.

Yours sincerely
Chamidi Methmini

Beloved Aunties & Uncles

Generous Aunties & Uncles: My family and I write this letter full of gratitude and thanks, in a very happy environment. We live in a small difficult island. We study in a small school. There are 72 students in the school. There are only eight classes in the school. When we receive Home Work we do it at night with the help of the bottle lamp. But there are night without the bottle lamp. This is due to shortage of kerosene due to economic problems of Sri Lanka. ;Because of the Solar Lights donated by you, now we can continue our studies successfully. I whole heartedly offer my gratitude and thanks for this generous donation.

Yours sincerely
